Washington, D.C - Today, California Democratic Congressional Delegation (CDCD) Chair Rep. Zoe Lofgren (D-San Jose) released the following funding analysis of H.R. 1, the American Recovery and Reinvestment Act of 2009. The bill, which the House of Representatives passed today on a 244 to 188 vote, will deliver much needed federal assistance to California.

"With California's unemployment rate soaring to 9.3 percent and no end in sight to our economic woes, this bill will give our state some help," said Rep. Zoe Lofgren. "This package is a step in the long journey to economic recovery. It makes vital and necessary improvements in our infrastructure, schools, law enforcement, health care, and sustainable energy. It will also help put thousands of Californians back to work and help jump start our local economies."

California will receive more than \$32 billion in economic recovery funding under ARRA [1]
